## Federal Tax Credit for Asphalt Shingles\*

30% Tax Credit up to \$1500 on materials meeting the EPA ENERGY STAR® Roofing Requirements for initial and three-year-aged solar reflectance.

"Asphalt shingles are prized for their durability, affordability, beauty and now also their energy efficiency when reflective shingles are installed as the protective top-layer of homes," Reed Hitchcock, Executive Director of the Asphalt Roofing Manufacturers Association

For more information on the EPA ENERGY STAR® Roofing Program requirements please visit
